- a. Feedback – Board Members Warren Malkin and Michelle Wilsey indicated that Ginther is the voice of the Board to the Commission. Communication is an issue. The issues we have seem to be all related to communication. The Commission was not informed of the meeting with the County on September 17 with Richard Trent, Dan Leonard, Wilsey and Ginther. Ginther did not report back to the Commission regarding the meeting. Discussion regarding issues with the County as to timelines and issues with dates was discussed. We asked for adequate notification, follow-up and possible emails with new issues. Link informed us of the November 6 meeting at the County regarding Comprehensive Plan for the entire County. We discussed enforcement of ordinances. They need to be a formal request to the County and they will review the same. Rich Trent joined the meeting at 7:45 p.m. We discussed the County's procedure as to the timelines of the issues. Again we asked for adequate notification and follow-up of the issues after the meeting. Trent has asked for support from the communities regarding the Land Use Plan. Trent asked for the changes of our revised Land Use Map again by the end of the November. We indicated to Trent that we would like the map we submitted to the County since it was the voice of the community. Since the Planning Commission would not have a chance to meet again before the information was due. Commission asked the Board to take up the issue.
